LB 812, 813, 814,
960

Public Health and Welfare Committee prior to the time of the public hearing for this to be added and did not accomplish that. What this does is increases the fee that the Department of Health can charge for the inspection of manufactured homes, legislation that was enacted two, three or four years ago. The existing statute permits them to charge a fee from, as I recall not less than ten nor more than twenty but in no event more than the exact cost. Currently the actual cost for these inspections are running about \$45 per unit and we are collecting around \$27,000 at the current level and having to substitute the balance of those inspections with General Fund money. The amendment will permit the fee to be from \$20 to \$60 but again not to exceed the actual cost. The actual cost now is \$45 per unit. It will raise approximately \$30,900 approximately \$31,000 and if this is amended...the appropriation bills are drafted on the assumption that this adjustment in fee will occur. If we fail to do it we will have to increase the General Fund authorization for these inspections by a like amount of the increase here in cash funds. I move adoption of the amendment, Mr. President.
